REMARKS

A Notice of Abandonment under 37 C.F.R. §1.53 was mailed on May 9, 2002 (see Exhibit A). The Notice of Abandonment indicated that the application was abandoned for failure to reply to the Notice to File Missing Parts mailed on September 13, 2000.

In fact, however, applicant did file a response to Notice to File Missing Parts on November 3, 2000 (see Exhibit B). The response to the Notice to File Missing Parts includes a postcard that was stamped with a November 7, 2000 date by the Patent Office, a transmittal letter, a copy of the Notice to File Missing Parts, the required Declaration, and a check in the amount of \$65.00.

Applicant submits that there might have been some confusion at the Patent Office as to how to process the response to the Notice to File Missing Parts because on the postcard and the transmittal letter the serial number for the parent application (09/160,970) was used instead of the serial number for the application as identified in the Notice to File Missing Parts (09/625,080). However, please note that the attorney docket number (HERO-1-1097) on the postcard, transmittal letter, and check do match the attorney docket number on the Notice to File Missing Parts and on the postcard filed with the application (see Exhibit C).

Ms. Michelle Funston at Black Lowe & Graham had a telephone communication and sent a subsequent facsimile in order to resolve the fact that the postcard and transmittal letter that went with the response to Notice to File Missing Parts included the wrong serial number (see Exhibit D). As you can see, the facsimile included a letter from Ms. Michelle Funston to the US Patent and Trademark employee Ms. Janice Burse, apparently now retired, from the Customer Service Center. The facsimile included a copy of the cover letter with the correction made to the serial number as shown in Exhibit A. The letter further requested for Ms. Burse to advise if any further documentation was required to correct the error, and no further documentation was requested.

Therefore, Applicant submits that within two months from the Notice to File Missing Parts a proper Declaration was filed along with the \$65.00 surcharge. Therefore, Applicant submits that because the Applicant replied to the Notice to File Missing Parts, the application was not in fact abandoned. Because it was not abandoned, Applicant submits that this case should be revived.

If the Patent Office believes that the error was not entirely on the part of Applicant, then the Applicants further request that a refund of the petition fee be refunded into our deposit account, 501050.

Respectfully submitted,
